

**Curriculum vitae
resume For
Prof. Dr. Ebeed Saleh
Rector, Damanhour University**

Basic data.

- ◀ Name: PhD/Ebeed Abdulaati Saleh Abdulaati
- ◀ Date of the birth : 24/12/1964 A.D
- ◀ National ID : 26412241805276
- ◀ Major: Health control on meat products and food safety
- ◀ Nationality : Egyptian
- ◀ Postal address: 82 Abdulsalam AlShatheli, tower of Borg Alnugum - Damanhour – Elbehera Governorate
- ◀ Work phone: (045) 3368069
- ◀ Business Fax (045) 3368069
- ◀ Email ebeed.yahoo@dmu.edu.eg

Career

- ◀ Rector of Damanhour University by a decree of the President of the Arab Republic of Egypt, President / Abdul -Fattah Al-Sisi No. (510) for the year 2015, 29/12/2016 uptil now.
- ◀ Dean of the Faculty of Veterinary Medicine-University of Damanhour by Decree of the President of Egypt, President Abdul-Fattah Elsis no. (194) for the year 2015, 29/4/2015.
- ◀ Vice Dean of the Faculty of Veterinary Medicine - Damanhour University for Community Service and Environmental Development on 22/4/2012.
- ◀ Chairman of the Department of health control on food and food safety with the Faculty of Veterinary Medicine- Damanhour University, 25/10/2011.
- ◀ Chairman of the Department of health control on food and food safety, Veterinary College AlBustan-Damanhour branch- Alexandria University from 6/4/2009 to 25 / 10 / 2010

Career Progression

- ◀ Professor at the Department of Food Hygiene at the Faculty of Veterinary Medicine at Al Bustan, Damanhour Branch, Alexandria University from 6/4/2009 to 25/10/2010.
- ◀ Professor, Department of Food Hygiene, Faculty of Veterinary Medicine, Alexandria University, from 30/7/2007 to 5/4/2009
- ◀ Assistant Professor, Faculty of Veterinary Medicine- Alexandria University from 30/7/2007 to 5/4/2009
- ◀ Lecturer at the Faculty of Veterinary Medicine - Alexandria University as of 24/6/1997.
- ◀ Lecturer, Faculty of Veterinary Medicine - Alexandria University as of 24/6/1997 A.D.
- ◀ Demonstrator, Faculty of Veterinary Medicine - Alexandria University from 10/10/1988 A.D.

External visits and scientific missions abroad

- ◀ Travel to pursue doctorate degree through (joint supervision system) at the University of Veterinary Medicine, Vienna, Austria, health control Institute for meat technology and food safety in 1995-1997. Entitled "Bacteriological and chemical changes that occur in the protein during the storage and corruption of poultry meat".
- ◀ Travel from the University of Veterinary Medicine in Vienna, Austria to University of Bristol , England, Department of food science March, 1997 UK, England.
- ◀ Travel from the Department of food science laboratory of animal origin foods, Bristol University to the Royal College of London in March 1997.
- ◀ Travel to the University of Bristol, England, May 2002 United Kingdom England (scientific mission) , laboratory of Food Science Department of Animal Origin (to work with Dr. Vivin Allen and Dr. Gantt of Korea at the University of Bristol, England) in a project to identify critical points or pollute poultry meat with the Camelobacter and Salmonella strains and the natural and ready-made methods of the current commercial lines for reduction of pathogenic organisms, especially the Camilobacter on

fresh poultry (from Dr. Gante of Korea, University of Bristol, England).
(Letter annexed)

- ◀ Travel to London's Royal College , England. May 2002, working with Prof/Geghari Med , food safety Professor (letter annexed).
- ◀ Travel to the Sultanate of Oman at the invitation of the Ministry of regional municipalities and water resources to carry out a workshop entitled \ " Safe handling of food in food facilities" and Participated with seven presentations. The workshop was moderated by Dr Cornella Gustin, Chair of the Food and Agriculture Organization of the United Nations (FAO), where she delivered one lecture on Sunday, April6, 2015.
- ◀ Travel to Kuala Lumpur-Malaysia at the invitation of the "Capital Expert Training Company" to train the health inspectors and laboratory heads of the Sultanate of Oman on the training program (analysis and assessment of risks in food and veterinary facilities) from 12 to 16 October 2014 (certificate annexed).
- ◀ Travel to the Sultanate of Oman at the invitation of the Ministry of regional municipalities and water resources to participate in food safety Conference in Muscat, Sultanate of Oman from 7-9/4/2015 A.D.
- ◀ Travel to Muscat, Sultanate of Oman to participate as a lecturer and trainer in the training program (System analysis and risk assessment in veteraniry food establishments) in capital expert institution from 31/1/2016 until 4/2/2016.
- ◀ Travel to Brussels, Belgium to attend a meeting of the Euro-Mediterranean Universities Union (UNIMED) from (15-17/3/2016).
- ◀ Travel to the sister U.A.E. State at the invitation of the U.A.E. University to attend the forty-ninth session of the General Conference of the Arabian universities Union during the period of (10-11/4/2016).
- ◀ Travel to Russia at the invitation of the University of Belgorod to discuss the terms of cooperation between the University of Damanhour and Belgorod University relevant to student and faculty members exchange from (9-14/8/2016).
- ◀ Travel to Japan at the invitation of the University of Osaka and kyoto to discuss cooperation in education and academic research at the Faculty of Dentistry , Faculty of Foreign Studies , Faculty of Foreign Languages

and Culture and Research Institute for microbial diseases. He also attended the scientific forum about Avian flu from 27/8/2016 until 1/9/2016.

- ◀ Travel to Moscow – Russia to discuss academic cooperation and scientific research and the renewal of the memorandum of understanding between University of Damanhour and Moscow Academy of Veterinary Sciences and Biotechnology during the period of (13-18/9/2016).
- ◀ Travel to Barcelona - Spain to participate in (The first conference of the RESUME Project) under the title (bridging the gap between education and labour market and linking student to labour market) during the period (28-29/9/2016).
- ◀ Travel to Rome, Italy to attend the Euro-Mediterranean universities Union meeting to discuss a number of issues relevant to the Unimed during 20 – 21/10/2016
- ◀ A visit to the University of Las Palmas de Gran Canaria, Spain as Chairman of the committee to discuss the doctoral thesis of Dr. / Islam Alalfie –assistant lecturer at the Department of animal production, poultry, Faculty of Agriculture, University of Damanhour during (24-26/10/2016).
- ◀ Travel to Russia to visit the nuclear Institute for space sciences and Faculty of Physics of Moscow State University during the period of (2-8/2/2017) to discuss cooperation items to be signed in the field of space and physics.
- ◀ Travelling to Japan to visit the National Institute for materials science (NIMS), University of Wasida in Japan during the period (27/2/2017-3/3/2017) to discuss cooperation items to be signed in the areas of academic scientific exchange of experiences between Damanhour University and Seda University.
- ◀ Travel to Genoa – Italy, at the invitation of the Genoa University to attend the EU meeting for management of Project 57889 – Tempus – 1-2013-SE-Tempus and attending a workshop at the Genoa University from 29/3/2017 until 2/4/2017.

Travelling to Dubai - United Arab Emirates at the invitation of Mena University of Management to agree on the establishment of a branch of Damanhour University in Dubai during the period (20 - 23/5/2017).

✍ Designing Curriculums in the field of health control on meat products quality and food safety

✍ Do teaching and also active participation in the work of theoretical ,practical and oral examinations of health control courses on meat products and food safety for the final year students in the faculties of Veterinary Medicine and graduate students " Diploma - Master - PhD "in accordance with the faculty institute:

- 1) Health control on meat products, practical and theoretical part of undergraduate students of the fifth year. (ISIN 0835A)
- 2) Meat and fish products microbiology. (ISIN 1808518).
- 3) The analytic chemistry for meat products (ISIN 1808522).
- 4) The nutritious poisoning (ISIN 1808524).
- 5) The health control on meat of animal slaughters. (ISIN 1808516).
- 6) Chemical residues in food (ISIN 1808526).
- 7) Quality assurance of fish and poultry (ISIN 1808529).
- 8) Meat products quality assurance (ISIN1808532).
- 9) Analysis of critical points for food production plants (ISIN 1808534).
- 10) Microbiology of meat and its products (ISIN 1808518).
- 11) Quality assurance of animal slaughters meat (ISIN 1808527).
- 12) Quality assurance of fish and poultry (ISIN 1808529).
- 13) Health control on the remnants of abattoirs (ISIN 1808533).
- 14) Health control on meat and meat products (ISIN 1808601).
- 15) Health control on poultry and rabbits meat and products (ISIN 1808602).
- 16) Health control on fish and their products (ISIN 1808603).
- 17) Healthy abattoirs remnants (ISIN 1808604).
- 18) Healthy remnants of poultry slaughterhouse. (ISIN 1808605).
- 19) Meat quality assurance (ISIN 1808606).
- 20) Quality assurance of poultry and rabbits (ISIN 1808607).
- 21) Fish quality assurance (ISIN 1808608).
- 22) Quality control of meat products (ISIN 1808609).
- 23) Quality control of poultry and rabbit meat products (ISIN 1808610).
- 24) Quality control of fish products (ISIN 1808611).

- 25) Quality control of poultry waste slaughterhouse (ISIN 1808612).
- 26) Quality control of abattoirs animal remnants (ISIN 1808613).

◀ Teaching and training experiences in the field of food safety and food quality control:

- 1) Experiences in hazard analysis and critical control points (HACCP): Teaching system for undergraduate and graduate students as well as supervising its application in food and veterinary facilities.
- 2) Experience in ISO 22000:2005 and core programs PAS 220:-he's teaching students for undergraduate and postgraduate studies as well as supervising application on food and veterinary facilities.
- 3) Experiences on good manufacturing practices (GMP), teaching such practices for graduate and undergraduate students as well as supervising application in various food plants.
- 4) Experiences in the field of good hygiene practices (GHP), teaching practices for undergraduate and graduate students as well as supervising application in various food plants and abattoirs , food and veterinary facilities.
- 5) Experiences in the area of good practices in food analysis laboratories (GLP), teaching system for undergraduate and graduate students as well as supervising applications in various food plants.
- 6) Experiences in quality food trading (GHP) teaching practices for undergraduate and graduate students as well as supervising its application in various food plants , abattoirs , food and veterinary facilities.
- 7) Experiences in good storage of food products (GSP,) teaching practices for students of undergraduate and graduate stages as well as supervising its application in various food plants and abattoirs and food and veterinary facilities.
- 8) Experiences in good transport of food products (GTP) teaching practices for undergraduate and graduate students as well as supervising its application in various, abattoirs , different food and veterinary facilities and factories.
- 9) Experiences in analyzing , assessing and managing risks to food (Food Risk Analysis):- teaching that to graduate and undergraduate

students as well as supervising risk assessment in food and veterinary facilities.

- 10) Experience in the 6-sigma:-he's teaching to graduate students as well as supervising its application in various food and veterinary facilities.
- 11) Experience in KanBan:-he's teaching to graduate students as well as supervising its application in food and veterinary facilities.
- 12) Experience in Kaizen:-he's teaching to graduate students as well as supervising its application in food and veterinary facilities.

personal skills , experiences and the practice

- ◀ A professional associate TOT1 certified International trainer (Trainer Associate International Associate Trainer) certified by International Council of certified instructors Center (IBCT) on 6/7/2011 (certificate annexed).
- ◀ Certified trainer at Certend Middle East, accredited by the National Accreditation Council and Accreditation International ((ISO 9001, ISO 14001, ISO 18001 and ISO 22000 , 1/1/2014 (statement).
- ◀ Certified Trainer of Clinielab company for Training on Food and Fodder Analysis device , Food Scan (Meat Analyzer) (NIR) system from American Unity company (2013) to date (attached is a certificate with code number).
- ◀ (ITOT) International Certified Trainer from the Canadian Academy and Cairo University (Excellent degree) from 30/6/2012 to date. (Certificate annexed)

Personal skills of dealing with the computer

Accomplished the courses for the (ICTP) certificate from Alexandria University faculty members training project in 2009, which are 7 programs:

- ◀ Basic Concepts of Information Technology
- ◀ Computer use and managing files
- ◀ word processing
- ◀ Excel spreadsheet
- ◀ Access
- ◀ Power Point presentations

- ◀ Information and communication technology
- ◀ Introduction to the protection and maintenance of personal computer

✍ Training programs accomplished in the domain of Development of the capacity of faculty members, university leaders, and administrative and leadership skills

- ◀ Faculty and Leadership Development Center (FLDC) , Alexandria University (7 programs) :
 - Development of management skills.
 - Decision making and problem solving.
 - The economics of marketing and funding scientific research.
 - Using technology in teaching.
 - Ethics of the profession.
 - Curriculum and programs design.
 - Assessment and examinations systems.
- ◀ Accomplished (1) program of the Faculty and Leadership Development Center ,Damanhour University:
 - The academic administration.
- ◀ Certand Middle East company , accredited by the National Council for Accreditation and accredited according to ISO International Standards. ISO 9001 for Quality Management Systems and the preparation of quality management documents system, ISO 14001 for environment safety System, ISO 18001 for Health and Occupational Safety System ISO 22000, and Food Safety Management System.
 - meetings/Time and meetings management 25-27/8 2009
 - Successful performance indicators 17-18/8/2009
 - Crisis management strategies 13/8/ 2009
 - Management skills 14-15/1/2009
 - Communication skills and team building 23-27/8/2008
 - Financial and legal aspects in the academic administration 13-17/2/2005

◀ Training programs in (leadership and management and supervisory areas) of SQC training and consulting company:

- Assessing and measuring performance indicators 17-18/1/2009.
- Risk assessment and analysis of environmental effects 29-30/11/2008
- Leadership and supervisory skills 21/8/2007.
- Application of the quality system in institutions of higher education 27-28/8/2006.
- Specialized quality monitor preparation 20/8/2006
- Basic concepts of quality management systems and quality management system documentation according to specification ISO 9001, on 23/8/2005.

✍ Tasks assigned by the University and Faculty (University ,Faculty and community service):

- ◀ Deputy Director of the Center for quality assurance for University of Damanhour (Decree no. 58, dated 7/5/2011)
- ◀ Information technology director, quality and accreditation for FLDC Damanhour University , 29/12/2010 to date.
- ◀ Commissioning by Prof/Vice Rector Damanhour University, education& students affairs to be a representative of the University in the Institute of leadership development, Helwan, due to excellence and effective participation and representation from 21/5/2014 to date.
- ◀ Chairman of the University's Committee of labs and laboratories (Decree no.147 5/4/2015) to date.
- ◀ Associate Trainer certified by FLDC Faculty and Leadership Development Center - Damanhour University 6/7/2011 to date.
- ◀ Executive Director for the adoption of food safety and nutrition lab, Faculty of Veterinary Medicine- Damanhour University from 1/8/2011 to 19/6/2014.
- ◀ Director of food safety and nutrition lab internationally accredited according to international standards of laboratory accreditation ISO 17025 : 2005 , Faculty of Veterinary Medicine- Damanhour University from 30/2/2014 to date.

- ◀ Commissioned by the Quality Assurance Centre, University of Damanhour as Chairman of the self assessment team and the technical support of the Quality Assurance unit of the Faculty of Commerce, Damanhour University . On 1/10/2014 .
- ◀ Commissioned by Prof/Hatem Salahuddin Abdul Hamid, Rector of Damanhour University of full control on both University café premises (January 25, Al-Abaadeh-scientific complex) and ensuring the level of service and its compliance with all health and safety conditions and occupational safety, food safety as well as emphasis on proper treatment of students and staff at the University from 1/10/2014 to date.
- ◀ Commissioned by the quality assurance Center , of Damanhour University as Chairman of self assessment team and the technical support of the quality assurance unit of the Faculty of Agriculture Damanhour University, on Wednesday 6/4/2014.
- ◀ Commissioning by Damanhour University FLDC center to ongoing supervision and monitoring as well as supporting the project [Maintenance & Awakening of students Role](#) (M.A.S.R.)
- ◀ Quality Manager for food safety and nutrition lab, Faculty of Veterinary Medicine- Damanhour University 1/8/2011 to date.
- ◀ Member of the Board of Directors of the service improvement project, ElBehera governorate , 7/5/2015.
- ◀ Board member of Livestock and Plant Development Adah – Sidi Ghazi – Kafar Aldawar on 14/6/2015
- ◀ Chairman of the laboratories at the Faculty since 1/5/2009 so far.

Participations in journals, associations and educational centers and the academic activities abroad and inside country in food quality control

- ◀ Member of food refrigeration and preservation Center and research and development of food preservation Engineering center , University of Bristol, England. [FRPERC](#)
- ◀ Member of the Journal of Veterinary and Medical Sciences in Pennsylvania and Bldevia in the United States of America (Veterinary Science & Medicine)

- ◀ Member of the Executive team for Damanhour University capacity & leadership development center and ICT , quality and accreditation for capacity & leadership development Center, Damanhour University , 29/12/2010 to date.
- ◀ Member of the Egyptian society for food control and consumer protection.
- ◀ An active member of the 'The Higher Education Enhancement Project Fund' for the development of education and the development of health control course on meat, fish and animal products nationwide (HEEPF).
- ◀ Member of the Egyptian Society for Veterinary Sciences.
- ◀ An active member of the Alexandria Journal of veterinary medical science.
- ◀ Member of the The Egyptian Association of Medicine and Law.
- ◀ Member of [International association for Food Protection,620 Aurora, Avenue, Suite 200w Des Monies, Lowe 50322-2864,USA](#)
- ◀ Engages in scientific leadership of groups of male and female students in different faculty teams to organize meetings with them and study their social and educational problems and try to suggest the optimal solution.
- ◀ Participated as a member of the Board of the Faculty of Veterinary Medicine, Alexandria University on behalf of faculty members for the Academic year 2000-2001
- ◀ Member of the Board of the Faculty of Veterinary Medicine, Alexandria University as one of the oldest three professors in the Department for 2007-2008
- ◀ Participated as a member of the Board of the Faculty of Veterinary Medicine, Alexandria University on behalf of assistant professors in the faculty for the Academic year 2005-2006.
- ◀ Member of the Board of the Faculty of Veterinary Medicine, Alexandria University , Damanhour branch from 2009 until 2010
- ◀ Member of the Board of the Faculty of Veterinary Medicine, Damanhour University in the faculty from 2010 so far.

Membership and functions of the committees within the faculty, University and State

- ↖ A member of food code commission (Codex), Egyptian Organization for standardization and quality (EOS).
- ↖ Member of the Committee for meat and meat products ,Egyptian Organization for specification and Quality (EOS).
- ↖ Member of the National Committee for the establishment of National Bank for laboratories and scientific equipment , Egyptian Universities, Supreme Council of Universities from 15/2/2015 to date.
- ↖ Chairman of the laboratories of Damanhour University decree of Prof/Rector no. 147 from 5/4/2015 up till now.
- ↖ Chairman of the laboratories at the Faculty of Veterinary Medicine- Damanhour University from 2010 so far.
- ↖ Chairman of labs & laboratories commission , AlBustan Faculty of Veterinary Medicine -Alexandria University 2009-2010.
- ↖ Chairman of community service and environmental development committee , Faculty of Veterinary Medicine, Damanhour University , 22/4/2012 up till now.
- ↖ Chairman of the Graduate Studies and Research Committee , Damanhour University, on 1/5/2015 up till now.
- ↖ Member of the Egyptian society for quality on 28/5/2015 up till now.
- ↖ Member of the Committee to prepare the draft of educational effectiveness of Faculty Council 15/12/2014.
- ↖ The Chairman of the Committee on occupational safety and health in the faculty no.(4) on 10/10/2014 to date.
- ↖ Member of the Committee of Directors of University Quality Assurance Unit 21/9/2014.
- ↖ Member in development projects center , 31/8/2014 .
- ↖ Member of the insurance committee for slaughters in ElBehera.
- ↖ Member of the Committee on community service and environmental development in Damanhour, 22/4/2012.
- ↖ Member of the Committee of graduate studies and research , 22/4/2012.

- ◀ Member of the Education and students Committee , 22/4/2012.
- ◀ Member of community service and environmental development committee in the faculty , 22/4/2012.
- ◀ Chairman of credibility and morality committee of quality project (QAAP2) 2010/2011.
- ◀ Member of programs and curriculum affairs committee in the faculty 2009.
- ◀ Chairman of the Internal Audit Committee in the faculty for quality project (QAAP2) ,Faculty Council on 15/8/2009 .
- ◀ Chairman of the Community Services and Environment with an internal quality system project 28/4/2009.
- ◀ Amendment to graduate institute committee member in the faculty.
- ◀ Labs & laboratories committee member, Faculty of Veterinary Medicine- Alexandria University in 1989 until 2008.
- ◀ Member of institutes, Programs and Curriculum affairs committee at Damanhour University , 11/5/2015.
- ◀ Damanhur University Board member , 2/5/2015.
- ◀ Egyptian Standards and Quality Authority committee member.

✍ Participation in student unions and student activities for Faculty and University:

- ◀ Supreme Cultural Committee consultant, Damanhour University students union, 2010/2011.
- ◀ Science and Technology Committee Advisor to Faculty Student Union on 2010/2011.
- ◀ Science and Technology Committee Advisor to Faculty Students Union in 2009/2010.
- ◀ Pioneer of Faculty Social Committee and trips to Faculty students Union in 2005.
- ◀ Pioneer of Faculty Social Committee and trips to Faculty students Union in 2004.
- ◀ Training of undergraduate and graduate students in abattoirs and food manufacturing companies and all food and veterinary facilities.

- ◀ Accompanying students to Al-zahraa' farm for Arabian horses for the purpose of training and acquiring practical skills as well as detecting pure Arabian horses on 12/4/2014.
- ◀ Member of the Education and students committee at the faculty.
- ◀ (He participated in student activities at the university level in the contestant of excellence (Ibdaa') (3), held in Cairo University on Thursday 16/4/2015 and organized by Ministry of Youth and Sports with Sharjah Foundation for the UAE (photo attached)

Awards and scientific achievements:

- ◀ 2016 Distinguished University Award from Damanhour University .
- ◀ Alexandria University Award for Scientific Encouragement, 2007.
- ◀ First rank award in the study: "Effect of nano-zinc particles on lysteria monosetogen "in meat products" This research was ranked first among the researches published in the first international conference
- ◀ "The impact of environmental hazards on food health and safety" Food Control Department - Faculty of Veterinary Medicine - Zagazig University
- ◀ Approval of first factory for food & nutrition safety nationwide and the Middle East, of the National Council for Accreditation with international recognition from the International laboratories Accreditation Organization (ILAC) ,Where he succeeded in leading the executive team in his capacity as the executive director of the laboratory in such a short period of passing the Proficiency test (PT) from Eurofin of Europe and also succeeded in the assessment visit carried out by a team of international assessment experts.
- ◀ One of the features of Excellence of an Executive Director is his ability to work in team spirit and motivate the Executive team until he gets the accreditation for the lab at first visit in eight programs in chemical and microbiological tests. This will be the core to accomplish the accreditation program of Veterinary Medicine- Damanhour University.

- ◀ Assessment of a scientific study for International Food Research Journal (IFRJ) entitled as "Correlation between some direct and indirect tests for screening of subclinical mastitis"
- ◀ Evaluation of special tutorial program : Nominated by project management of the Ministry of Higher Education in Cairo to assess the performance of a new educational programs according to the calendar and guide for assessment and accreditation in the institutions of higher education and Al-Azhar, issued by the National Authority for Quality Assurance and Accreditation , first Edition- January 2009 (title of program) Quality and Food Control, Faculty of Veterinary , Benha University, 14/3/2013 ((achievements)).
- ◀ Faculty of Veterinary medicine obtaining ISO 9001:2008 made it the first faculty to get an international quality certification gets inside Damanhour University, on 30/5/2015
- ◀ Protocol of cooperation between the Faculty of Veterinary Medicine, Damanhour University and Faculty of Veterinary Medicine, Faculty of Nursing & Medical Sciences Tsikiji University, Alabama, USA , 15/5/2015.
- ◀ Cooperation protocol between Faculty of Veterinary Medicine , Damanhour University and a Syrtn Middle East company for granting certificates , 30/5/2015.
- ◀ Initiating the implementation of admins development (admins of the faculty of Medicine) in the faculty of Veterinary Medicine – (the attendance and the photos attached) 16/5/2015 and 20/5/2015

- ◀ Training faculty workers for the first time to develop and elevate with the faculty on 4/6/2015 .
- ◀ Initiating training faculty members and assistant staff project , 17/5/2015
- ◀ Cooperation protocol between the Faculty of Veterinary Medicine-Damanhour University and Egyptian society for quality , 28/5/2015 .
- ◀ Cooperation protocol between the Faculty of Veterinary Medicine-Damanhour University and leaders Foundation for Legal and Commercial Consultants and international arbitration on 2/6/2015
- ◀ For the first time , students of first, second and fourth levels are trained on practical anatomy without having a morgue in the faculty , 16/5/2015 (photos and videos attached).
- ◀ The success of veterinary therapeutic and consultant campaigns in all their functions. This assures his ability and mastery of leadership and supervisory skills within a teamwork.
- ◀ The first rank award in the study entitled :
[Effect Pomegranate Peel Powder on the Hygienic Quality of Beef Sausag](#)
- ◀ Alexandria University Award for Scientific Encouragement, 2007.
- ◀ Honor and appreciation from the Ministry of Education by Dr. Mohamed Ahmed Yousif, Deputy Minister for Education and Technical education and Training, and also Director General of Agricultural Education Eng. Hassan Rashwan Mishal and also Dr. Mustafa Sharaf Desouki - General Director of Animal Health on the innovative training program for the development of practical educational skills for veterinarians, animal health and poultry health lecturers of the province of ElBehera and other provinces at the level of the Republic in the period from 30/11 to 4/12/12, (certificate annexed)
- ◀ Honor of Minister/ Ahmed Bin Abdullah Bin Mohamed Al-Shehhi, Minister of regional municipalities and water resources for the workshop he implemented in Muscat, Sultanate of Oman " Handling and safe storage of food in food establishments" in 6/4/2015.
- ◀ Honor of the Sultanate of Oman on the training programme (Analysis and Risk Assessment in Food and Veterinary Facilities) prepared and presented for the masters of health inspectors and laboratory heads

to the Sultanate of Oman in Kuala Lumpur and Malaysia .This training program was posted in readable media and broadcast from 12 to 16 October 2014 (attached a certificate).

- ◀ Honor and appreciation from the Training Company (Capital Experts for Training and Rehabilitation Services) for the training program (analysis and evaluation of risks in food and veterinary establishments) prepared and trained by the health inspectors and laboratory heads from the Sultanate of Oman in Kuala Lumpur from 12 to 16 October 2014.
- ◀ Invitation to the Ministry of Health in the Kingdom of Saudi Arabia to present a lecture at the Azizah Hospital in Jeddah and to present a workshop (attached an email) 30/3/2015
- ◀ Acknowledgments of CERT & Middle East company on the occasion of Faculty of Veterinary Medicine University of Damanhour obtaining ISO 9001:2008
- ◀ Awarded the first prize in a study entitled "Effect of nanoparticles on zinc lysteria monosetogen" in meat products. This was ranked first in research published in the first international conference "Impact of environmental hazards on food safety and health" Faculty of Veterinary Medicine - Zagazig University
- ◀ Honoring and appreciation of Channel 5 in Alexandria in 2012 , 2013, 2014 and 2015.
- ◀ Honor and appreciation from the deputy minister of education in ElBehera of Dr./ Ibrahim Abdul Aziz ,medication on retraining program for veterinarians and animal health lecturers and mentors to develop educational and practical skills all over ElBehera Governorate and other governorates nationwide (Health and safety of food and common diseases) from 30/11 to 4/12/2014. (Annexed a certificate).
- ◀ Honoring from Mansour Trading and Distribution Company for seaklm food products factory 2014.
- ◀ Honor and appreciation from the Department of Veterinary Medicine Abu Hommos 2014 on efforts to combat FMD, lumpy skin as well as to raise awareness about tuberculosis ,Brusella and avian flu and its relation to food safety.

- ◀ Honor and appreciation from Nile Channel for Higher Education 2014 to provide TV episodes of "turning point from food safety" show, "From Egypt" show; episodes of bread-crisis and "Eid Al-Adha " episode.
- ◀ Honor and appreciation of rural development project misbehaviors , in West of Nubaria 2014.
- ◀ Honor and appreciation of rural development project , El-Behera 2014.
- ◀ Honor and appreciation from the veterinary department in Hush Eisa, 2013 for the effort in upgrading veterinary system performance Center standard through scientific symposia about albrosla, food safety , Foot and Mouth disease and lumpy skin .
- ◀ Honor and appreciation from the Department of Veterinary Medicine, Rahmaniya 2014.
- ◀ Honoring from Mansour Trading and Distribution Company for sekln food products factory ,2009
- ◀ Acknowledgments of Union company for training and qualification in solving the pollution problem of beef burger by Escherichia coli microbe to a factory controlled by the company, 13/4/2011.
- ◀ Acknowledgments of the Union company for training and qualification in solving the problem of contamination of poultry slaughteres by (Salmonella) in a company-sponsored slaughter houses, 13/10/2014.
- ◀ Acknowledgments of "Union Company for Training and Qualification" in solving pastrami pollution problem with Staph.aureuns microbe for one of the factories sponsored by the company, 21/8/2012.
- ◀ Acknowledgments of the Union company for training and qualification for solving the problem of contamination of poultry slaughteres Microbe (Campylobacter) in one company-sponsored abattoirs, 13/1/2015.
- ◀ Acknowledgments of the Union company for training and qualification as a recognition for developmental idea and for outstanding efforts in developing meat and hotdog to a company sponsored factory, in 13/10/2015
- ◀ Acknowledgements from Leaders Foundation for "Strategic Planning Session", presented in Tanta City to raise efficiency and preparation of youth leaders.

- ◀ Acknowledgements from the Arab Union for sustainable development and environment speech for the session he presented entitled (the safety and quality of food) , 6/8/2015.
- ◀ Kuwait's Parliament has honoured Mr.Prof. Dr./ Ebeed Saleh, Rector of the University of Damanhour and thanked for facilitating and overcoming all obstacles to Kuwaiti students arriving to study at the University of Damanhour to instill an element of cohesion and coherence between fraternal peoples , 4/12/2016.

✍ Volunteerism , community participation and development environment development in order to maintain the overall health of citizens and the Egyptian national economy

- ◀ (Ministry of agriculture, the Ministry of education and collaboration with El-Behera Governorate, Damanhour University, Directorate of Education in El-Behera, the Association of doctors in Alexandria , the Directorate of Veterinary Medicine and management for community service and environmental development):
 - Commissioned by Damanhour Governorate and Directorate of Veterinary Medicine as a Committee member for solving problems encountering the sewage treatment unit of abattoirs to prevent Nile water pollution , on 13/3/2014
 - Training Faculty of Science students and developing their skills to write competitive projects and international ISO specification 17025:2005 for accrediting labs in the Faculty of Science headquarters, Damanhour University in student participation project to support excellence in 2014.
 - Commissioned by Damanhour Governor and Mr. Prof.Dr/Rector of Damanhour University as a Chairman of the Evaluation Team of (Adah) Agricultural Production Project in Kafr El Dawar ,27/12/2012
 - He participated in the activities of the second festival of the awareness unit for the prevention of Virus C under the slogan Of (This way, We protect) (Kda Nehmiha) (This way, we build)(Keda Nebniha). (We are all against virus c) under the auspices of ElBehera Governorate and Damanhour University Rector in addition to

ministries of health, youth , sports and the National Council for women on Tuesday 21/10/2014 in the Conference Hall, Cultural Complex, Damanhour.

- Participation in the development of a number of abattoirs to public and private sectors nationwide.
 - Participation in numerous Nile TV for higher education, including but not limited to ""From Egypt" show in addition to other shows for guidance and increased health awareness among citizens as well as producer and consumer about healthy treatment of meat , fish and animal products and the importance and seriousness of these foods. Moreover,increasing the awareness about some animal diseases such as foot-and-mouth disease, Brucellosis, tuberculosis, lumpy skin, three-day fever and other diseases and the way to deal with the meat of those animals since 2009 and so far.
- ◀ Participation in periodic seminars held by the Directorate of culture in ElBehera, where he presented a number of lectures on health treatments for meat, fish, animal products and food safety as well avian flu, swine flu and foot-and-mouth disease and LSD (Lumpy Skin Disease) to increase awareness of diet and health of the public intellectuals in 2008.
- ◀ Participation in seminars organized by the Sub syndicate of veterinarians in Alexandria where he presented a number of lectures about food poisoning and safety of meat and fish and also about avian flu , swine flu , foot-and-mouth disease and lumpy skin . This also increases product and consumer awareness as well as veterinarians in the health status of fish , meat and animal products and the way deal with the meat of infected animals and birds, 2008 up till now.
- ◀ Participation in a number of Central Delta Radio programs in Tanta for guidance and increased health awareness among citizens as well as producer and consumer health treatment of meat , fish and animal products. This also increases the awareness of the importance and seriousness of these foods and also with some animal diseases such as foot-and-mouth disease Brucellosis, tuberculosis, lumpy skin, three-day fever and other diseases and how to deal with the meat of those animals, since 2005 up till now.

- ◀ Training in the area of rural development program in the West of Nubaria for targeted groups in the areas of project work, to educate and instruct citizens of the importance and seriousness of diseases transmitted by dealing with these animals and eating meat, fish and animal products since 2005 up till now. (certificate annexed).
- ◀ Access to the project of accreditation of food safety and nutrition laboratory 8/1/2001 from project management and the Ministry of Higher Education
- ◀ Participation in a number of TV shows, channel 5 including but not limited to 'Morning talk' , 'Night talk' and 'Youth on the air' shows as well as other shows since 1997 up till now.
- ◀ Internships in EI Behera Governorate rural development project (certificate of honour).
- ◀ Participation in many of the health channel TV programs of the Ministry of health and population.
- ◀ Full and complete supervision as well as an effective participation of, therapeutic and counselling veterinary convoys in various centers and villages of EI Behera Governorate.
 - Making convoys manual of most of the activities ,villages and centers. He also participated in making posters and distributed to all university faculties in and University Administration to familiarize all university faculties in the lab and lab manual work project and distribute it to the community to familiarize it also with the laboratory and the services that the lab performs for the community and the environment.
 - Publication about the lab in all audio and video and readable media as well as all the social networking websites and on the University website.
 - Business newsletters to the community and members of the Faculty and assistant staff to elevate with the level of scientific research, community service and environmental development.
 - Active participation in therapeutic human convoys organized by the University of Damanhour for community service and environmental development centers, villages, EI Behera Governorate (letter of

- Prof/Vice President for community service and environmental development).
- Creating alumni unit to follow up graduates, training them and to find them job opportunities.
 - Doing two graduation ceremonies for the graduates together with inviting the owners of companies , civil society organizations and the General Union of veterinarians and sub-unions in Damanhour , Alexandria and the Directorate of Veterinary Medicine in ElBehera in order to delight the faculties graduates and find them appropriate job opportunities. (Attached are some photos of the graduation ceremony).
 - Implementation of seminars and specialized scientific training courses to elevate with the efficiency of veterinarians in the Directorate of Veterinary Medicine in ElBehera .
 - Implementation of seminars and specialized scientific training courses to elevate with the efficiency of veterinarians in the Directorate of Veterinary Medicine in Al-Rahmaniah .
 - Implementation of seminars and specialized scientific training courses to elevate with the efficiency of veterinarians in the Directorate of Veterinary Medicine in Hush Eisa .
 - Implementation of seminars and specialized scientific training courses to elevate with the efficiency of veterinarians in the Directorate of Veterinary Medicine in Abu Hummos.
 - Participation in the implementation of the free veterinary medical convoy carried out by Damanhour University in the city of Arish (because we love Egypt).
 - Participation in free medical convoys provided by the University of Damanhour to the villages of the province of the most needy ElBehera Governorate villages (under the supervision of Mr./ Magdy Khalil Suleiman, Vice Rector for Community Service and Environmental Development).
 - Participation in the preparation of a symposium organized by the University of Damanhour and presentation of a lecture (the current status of foot-and-mouth disease in Egypt and methods of control) at the Faculty of Pharmacy - University of Damanhour.
 - Blood Donation Day was organized on Tuesday 21/4/2015.
 - Board member of Livestock and Plant Development Project (Adah) – Sidi Ghazi – Kafar Aldawar on 14/6/2015

- Organized and participated in the celebration of Orphan Day at Al-sirafy Society for orphans on Thursday, 23/4/2015.

✍️ Training and workshops for the development of university performance Leadership development:

- ↳ Workshops following to Quality Assurance Unit at the faculty:
 - Workshop on academic standards 20/9/2009 Quality Assurance Unit in the faculty.
 - Workshop on the characterization of academic programs and courses 16/8/2009 for the project in Quality Assurance Unit in the faculty QAAP2
 - Faculty's self-evaluation seminar (its aspects, criteria and standards), the formulation of the vision, mission and strategic objectives of the faculty Saturday, 9/5/2009.
- ↳ Courses granted by the National Authority for Quality Assurance of Education and Accreditation:
 - The External Review of Higher Education Institutions of the National Authority for Quality Assurance of Education and Accreditation, Training Department of the National Authority for Quality Assurance and Accreditation from 4 to 5 December 2013.
 - Training Course for Curricula and Curriculum Maps formulation for Higher Education Institutions from the National Authority for Quality Assurance of Education and Accreditation. Training Department for the National Authority for Quality Assurance and Accreditation from 2 to 3 December 2013.
 - The Institutional Self-Assessment Course for Higher Education Institutions from the National Authority for Quality Assurance of Education and Accreditation ,Training Department of the National Authority for Quality Assurance and Accreditation from Nov.30 to Dec.1, 2013.
 - Strategic Planning Course in Higher Education Institutions from the National Authority for Quality Assurance and Accreditation during 28 - 29/1/2017.
- ↳ Training program granted by (National Quality Institute (NQI)) for the development of academic performance and measuring

performance indicators program ([Key performance Indicators](#)) from 1/9/2014 to 4/9/2014 at the institute's headquarter in Cairo.

- ◀ The training program granted by the National Council of Accreditation [EGAC](#) and the National Quality Institute [NQi](#) for the development of university performance
 - ISO / IEC 17025: 2005 17025 program for Measurement and Application of international ISO for the accreditation of labs and standardization as well as [Uncertainty of Measurement](#) in the National Institute from 11/5/2014 to 15/5/2014.
- ◀ Specialized Diplomas from the Canadian Academy and Cairo University for the Development of University Performance:
 - Diploma of International Professional Trainer ([ITOT](#)) [International Certified Trainer \(Professional Diploma\)](#) from the Canadian Academy and Cairo University on 30/6/2012.
 - Professional Psychological Health Diploma from the Canadian Academy (Excellent).
- ◀ Training courses for the development of the university performance as an organizer, rapporteur and participant in the field of health control of meat , meat products and food safety at the headquarters of the Food Safety and Nutrition Laboratory in the Faculty and laboratory experiences:
 - [Uncertainty](#) training course 17V12V2013.
 - The Training Course (Determination of Heavy Metals in Food & Feed) started from 1-3 /12/2013.
 - Scientific symposium on the economic importance of the fact that the Food Safety and Nutrition Laboratory is internationally accredited on Sunday, 14/11/2013.
 - The training course entitled "[Atomic Absorption Spectrophotometer](#)" for the measurement of heavy metals in meat, fish, milk, poultry and their products on Saturday and Sunday, 1-2/9/2013.
 - The training course for the use of ([Milkoscan](#)) apparatus on Wednesday 28/8/2013.

- The training course (Enumeration of coliforms in food) started from Saturday 3/8/2013 until Thursday 8/8/2013.
- Workshop entitled (internal audits and calculations of uncertainty) 1/8/2013.
- The training course under the title of tests PT on Wednesday, 25/7/2013.
- The course "[Detection of Listeria Monocytogenes in food](#)" started on Saturday 13/7/2013.
- The training course ([Determination of Thiobarbituric acid in food](#)) started on Monday 1/7/2013.
- The training course on "Determination of heavy metals in food & feed" apparatus will on Saturday 1/6/2013 until Monday 3/6/2013.
- The training course entitled The use of "[Atomic Absorption Spectrophotometer](#)" for the measurement of heavy metals in meat, fish, milk, poultry and their products on Saturday and Sunday, 8-9/5/2013.
- Workshop on Internal Audit of ISO 7025: 2005 on Saturday, 31/4/2013.
- The training course on [Meat Analyzer](#) on Monday 15/4/2013.
- Workshop on (The Importance of Laboratory Accreditation) Monday, Feb. 4, 2013.
- [Traning course about "Enumeration of coagulase Positive Staphylococcus Aureus in food](#) from 12-17 /1/2013.
- Training course on the use of the [Atomic Absorption Spectrophotometer](#) apparatus to estimate the quantity of heavy metals for food on Sunday and Monday 2-3 /12/2012.
- The course entitled "Meat Analyzer = Food Scan" to determine the percentage of protein, fat, ash and moisture in meat, milk and dairy products on Saturday and Sunday, 10-11 /11/2012.
- The training course under the title (ISO 17025: 2005) for the general conditions of the efficiency of the laboratory test and calibration, second edition in May, 2005 Wednesday, 31/7/2012.
- The course entitled "Meat Analyzer = Food Scan" to determine the percentage of protein in meat, fish, milk, poultry and their products, as well as the percentage of fat and the amount of ash ,on Monday, 23/7/2012.
- The training course entitled "Internal Audit" Saturday, 23/6/2012.

- Workshop on statistical analysis of data and results of tests using SPSS program on Saturday, 9/6/2012.
 - The training course entitled "Internal Audit" Monday, 4/6/2012.
 - The training seminar entitled (PT tests) on Tuesday 29/5/2012.
 - Workshop on ([Flourometer](#)) to identify the toxins for food and feed on Tuesday 28/5/2012.
 - Attendance of the workshop organized by the National Council for Accreditation on (Accreditation requirements of laboratories, inspection points and certification bodies in light of national experiences and international developments) on Monday, 11/6/2012. In Sofitel Hotel, Maadi Royal Hall in Cairo.
 - Participating in the symposium "Foot and Mouth Disease between Reality and Goals" organized by Damanhour University, Faculty of Pharmacy, Damanhour University, where a lecture presented entitled "foot and mouth disease and food and its relation to human health." A letter of thanks from Prof. Dr. /Magdy Khalil Soliman, Vice Rector for Community Service and Environment Development affairs, issued on 4/6/2014.
- ◀ Training courses for the development of university performance granted in the field of food safety Quality, health and occupational safety of Union Training and Rehabilitation:
- Hazard Analysis and Critical Control Points ([HACCP](#)) 15/1/2004.
 - Good health practices 8/18/2007.
 - The establishment and implementation of a food safety management system 15-21 \8\2006.
 - Food Safety Trainer 8-11 / 8/2004.
 - Internal audits of the Food Safety System 11-14/8/2005.
 - The establishment and application of occupational health and safety system OHSAS 18001 and environmental safety ISO 14001 2-5 /8/2005.
 - Quality of project management 13-14/8/2008.
 - Six Sigma 2-5 /8/2005 ..
 - Information Management System 19-24 /6/2005.
 - Internal Audit 24-28 /8/2005.
 - Requirements for the establishment of laboratories 14-18 /8/2004.

◀ General training courses for food safety, alumni service, community service and environment development at food safety lab and faculty:

- [Good Manufacturing Practice](#) in Food Factories for the Production of Safe Food, Consumer Health, Community Service and Environmental Development in Egypt, Monday 27/9/2014.
- [6-Sigma](#) Seminar for the production of food free of pathogenic causes for community service in Egypt Monday 19/9/2014.
- General Food Safety System (Food Safety Management System) ISO 22000: 2005 & (PAS 220) ,Monday, 4/8/2014.
- Training course of "Good Laboratory Practice" in order to ensure the safety of food, elevation with the level of graduates and maintaining the health of the consumer and the service of society in our beloved Egypt, Monday 21/7/2014.
- Scientific symposium for continuous improvement ([Kaizen](#)) in order to improve food products to meet the needs of the community of safe food and maintain consumer health and community service in Egypt Monday, 15/6/2014.
- A training course ([Detection of E .coli 0157 in food](#)) for the advancement of the graduates' skills and providing safe food for the community ,in the period 12-14 /11/2013.
- Scientific seminar for continuous improvement (KanBan) to improve food safety and food industries to satisfy the needs of Community food security and maintain the health of the consumer and community service in Egypt, Monday 14/10/2013.
- Scientific seminar on "Good Manufacturing Practice" in food factories for the production of safe food and maintain the health of the consumer and community service in Egypt ,Monday 17/9/2013.
- Detection of salmonella microbe in foods by using test (Detection of Salmonella in food) to elevate with the skills of graduates and provide safe food for community service ,Tuesday 20/8/2013.
- Detect corruption of fat in foods using test ([Detection of fat Rancidity in food by thiobarbituric acid](#)) in order to elevate with the skills of graduates and provide safe food for community service, Tuesday 4/6/2013.

- Detecting the corruption of protein in meat, fish, poultry and their products using Volatile nitrogen materials testing ([Determination of Total Volatile Basic Nitrogen in meat](#)) to elevate with the skills of graduates and provide safe food for the Community ,Tuesday 9/4/2013.
 - Design and implementation of all programs and all the workshops on all kinds of food and feed and water for safety as well as writing reports for both faculty members and assistant staff and University technicians as well as government agencies involved in food and feed test.
- ◀ The workshops and implementation designed by food health control department titled "safe handling of food from production to consumption":
- Food poisoning ,on Saturday 11/4/2015
 - An outbreak of food poisoning, on Wednesday 15/4/2015
 - Accidental food contamination ,on Saturday 18/4/2015
 - Personal hygiene in food, on Wednesday 22/4/2015
 - Good hygiene practices for food ,on Wednesday 29/4/2015
 - Safe handling of food during storage, on Saturday 2/5/2015
 - Domestic and international legislation for food safety Wednesday 6/5/2015

- ◀ _Pass the training course on food and feed analysis device) ([Meat Analyzer NIR system](#), December 2012 from Cleanilab company.
- ◀ Training activities, courses and tests being implemented within the food safety and nutrition Lab (laboratory experiences) (lab manual):

Conducting several food safety training courses for faculty members and the faculties of Egyptian universities assistant staff affiliated with food.

as well as faculty members and technicians working in the control of exports and imports at the Ministry of Commerce and Industry, food manufacturers, food inspection laboratories and writing technical reports.

Conducting all food safety analysis for all civil society organizations and all those who need them.

• Total Aerobic Bacterial Count in food	• PCR and DNA typing
• Total enterobacterice Count in food	• Determination of Crude Protein
• Total psychotropic Count in food	• Determination of Crude Fat
• Total yeast, mold Count in food	• Rancidity in food
• Staph.aurus Count in food in food	• Determination of Ash
• Detection of Salmonella and Shigella in food	• Determination of Crude fiber
• Coliforms Count in food	• Detection of preservatives in food
• Detection of E. Coli true fecal type in food	• Determination of Aflatoxins
• Detection of <i>Listeria monocytogens</i> in food	• Determination of Ochratoxins
• Detection of Vibrio species in food	• Determination of Zearalenone
• Detection of <i>Clostridium perfringes</i> in food	• Determination of Aflatoxin in milk and milk products
• Detection of Campylobacter in food	• Determination of Dry matter
• Basic analysis for meat, poultry and fish	• Collagen determination
• Hardness and Senility of water	• Determination of thiobarbituric acid
• Detection of drug residues	• Detection of pesticides
• Detection of hormones residues	• Detection of heavy metals in food and water
• Detection of herbicides	• Detection of heavy metals in marine sediment
• Basic analysis for milk and dairy products	• Determination of Urea (in feed)

Curriculum Vitae Resume of PhD/Ebeed Saleh

• Detection Sensitivity test	• Detection of milk and dairy products adulteration
• Detection Chemical analysis of water	• Microbiological analysis of water
• Detection Salmonella spp.	• Water Activity
• Detection Clostridium Identification	• Clostridium Identification
• Detection Bacillus Identification	• Spoilage Organisms
• Detection Pathogen Confirmations	• Determination of Bacillus cereus
• Detection Coliform Count	• Determination of Streptococcus Count
• Detection Lactic Acid Bacteria Count	• Determination of Pseudomonas Count
• Detection Staphylococcus aureu	• Determination of Determination of Total Coliform Count
• Detection Total Enterobacteriaceae Count	• Determination of Yeast & Mold Count

- Detection of pesticide residues, antibiotics, hormones, nitrophenols and green malachite in food, vegetables and feed.

Participation in scientific conferences, seminars and workshops:

- ◀ Participated in the First International Conference (Effect of Environmental Risks on Food Safety , Health Food Control Department) Zagazig University 20/8/2014 (First Research Award)
- ◀ Participated in the activities of the scientific week of the Department of Plant Protection - Faculty of Agriculture - Damanhour University from Nov.30 to ,Dec. 4, 2014 and received Mr. / Zhou **Jing** Jaing ,Department of Food Safety and Nutrition in the faculty.
- ◀ He participated in the quality conference in the conference hall which was organized under the auspices of His Excellency the Prime Minister Eng. Ibrahim Mahleb and the Minister of Higher Education Dr. El Sayed Abdelkhalek at the Celebration Hall, Cairo University on Thursday 28/5/2015.
- ◀ Participated in the activities of the scientific conference held in the Department of Pathology - Faculty of Human Medicine - University of Alexandria from 3-5 / 3/2015 (**Integrated laboratory Medicine at the Clinical Interface**)
- ◀ Participated in the workshop entitled "Using modern technological means to advance the educational process" and "Forming other types

of student assessment tools" in Panorama Animal Project on Saturday 7/3/2015 at the Faculty of Veterinary Medicine Council - Damanhour University.

- ◀ Participated in the workshop entitled "Handling, treatment and Safe Storage of Food" in Muscat, Sultanate of Oman on Monday 6/4/2015
- ◀ Participated in the activities of the Food Safety Conference ("Food Safety Week") in Muscat, Sultanate of Oman on April 7, 2015 - April 9, 2015.
- ◀ Organizing a workshop entitled "**Food Poisoning**" at the Faculty of Veterinary Medicine, Damanhour University and participated in a special presentation on Saturday 3/5/2015
- ◀ Participated in the activities of the scientific symposium of the University of Alexandria on ways to activate the provision of red meat in Egypt and reduce prices where he presented a lecture under the title of 'The Role of Veterinary Medicine in the Provision of Red Meat' on Monday 23/4/2012
- ◀ Participated in the conference of continuing medical education of the Faculty of Medicine , Ain Shams University at Ain Shams University Guest House where he presented a lecture under the title of "Environment and Food Safety from Radiation and Nuclear Exposure" 4/6/2011
- ◀ Participated in the preparation and analysis of learning outcomes on 29/12/2010
- ◀ Participated in a major symposium organized by the Chamber of Commerce of the province of ElBehera in cooperation with the Association of Guidance and Consumer Protection on the rules of rationalization of consumption at the Chamber of Commerce to discuss the phenomenon of high prices of meat on Wednesday 5/5/2010
- ◀ Participated in the dialogue forum on the project of establishing the Center for the development of university education of Alexandria University, organized by the Alexandria University in the Academic city of Smouha on Feb.27-28, 2010

- ◀ Participated in the scientific symposium held in the Great Hall of the Faculty of Nursing, Alexandria University on the international standards for scientific research and faculty members on 27/2/2010
- ◀ Participated in the Fifth Scientific Conference (Veterinary Medicine in Community Service) organized by the Faculty of Veterinary Medicine - Alexandria University 2009
- ◀ Participated in the scientific symposium organized by the Higher Institute of Public Health, where he presented a lecture entitled (health treatments for Eid Al-Adha to obtain meat with high nutritional value and free from pathogens) on 18/11/2009 in the main auditorium of the Higher Institute of Public Health - Alexandria University.
- ◀ Participated in the activities of the Fourth Scientific Conference of Veterinary Research, Faculty of Veterinary Medicine, Alexandria University, 2-4 October 2009
- ◀ A workshop for the formulation of programs and curriculum on 16/8/2009 organized by the Faculty of Veterinary Medicine AlBustan - Alexandria University ,Damanhour branch.
- ◀ Participated in the activities of the scientific symposium on "swine flu" organized by the Faculty of Veterinary Medicine, AlBustan - Alexandria University where he presented a lecture entitled (phobia of swine flu) on 18/5/2009 at the AlBustan Branch ,Damanhur - Alexandria University.
- ◀ Participated in the activities of the National Symposium on Aquaculture under the title of "Investment Horizons in the Field of Fish Farming (Tilapia Fish for Export),such an Analysis and Future Perspective" ,organized by the Faculty of Veterinary Medicine at AlBustan - Alexandria University 11/3/2009 at Mubarak Hall in Damanhour.
- ◀ Participated in international scientific symposium (Avian flu) analysis and Outlook ,organized by the Faculty of Veterinary Medicine, Alexandria University 12/11/2008 at Mubarak Hall in Damanhour
- ◀ A workshop on Monday 7/1/2008 for developing meat and fish products, organized by the Faculty of Veterinary Medicine-Alexandria University
- ◀ Participated in a Scientific seminar held at the Faculty of Veterinary Medicine University of Alexandria under the title "Avian Flu and its effect on human and animal health", on Saturday,17/11/2007

- ◀ Rapporteur and effective participant in the workshops for the development of health surveillance decision on meat, fish and their technologies in Egypt ,held in the Hall of Youth Care, Alexandria University, 2/10/2007 and organized by the Faculty of Veterinary Medicine-Alexandria University.
- ◀ Participated in seminars organized by the National Party and its affiliated associations relevant to the consumption of meat, fish and animal products, where he delivered several lectures to educate the consumer about the healthy state of meat and animal products , 2006.
- ◀ Participated in the seminar in the superior Health Institute entitled \ " Trading the Meat of Eid Al-Adha and Consumer Health", on Dec26, 2006 and presented a lecture there.
- ◀ Posted in scientific symposium held by the Faculty of Veterinary Medicine University of Alexandria under the title \ Avian influenza and its impact on human and animal health " , held on Sunday 19/12/2006
- ◀ Participated in the second scientific conference held at the Faculty of Veterinary Medicine, Kafr El-Sheikh University of Tanta (veterinary and human health) from 6-8 May 2006.
- ◀ Participated in the fourth scientific conference held at the Faculty of Veterinary Medicine, Mansoura University in conjunction with the University of Teramo , Italy from 5-6 December 2005.
- ◀ Participated in the activities of the Fourth Scientific Conference of Veterinary Research, Faculty of Veterinary Medicine, Alexandria University, 2-4 October 2004.
- ◀ Participated in Alexandria University Symposium held at the headquarters of the faculty under the heading \ Projects financed by the European Union with a view to development

- ◀ Participated in the second International Conference to monitor the health and safety of food, held in the Faculty of Veterinary Medicine, Assiut University 2003.
- ◀ Participated in the first scientific conference held at the Faculty of Veterinary Medicine-Kafr El Sheikh-Tanta University from 6-8 October 2003

- ◀ Participated in the third international scientific conference held at the Faculty of Veterinary Medicine, Mansoura University in conjunction with the University of Rome , Italy from 29-30 April 2003.
- ◀ Rapporteur and effective participant in the \ Mad cow" symposium organized by the Faculty of Veterinary Medicine, Alexandria University, Institute of Graduate Studies and Research on Thursday 21/6/2001
- ◀ Participated in the attendance and training for 6 courses of FLCD faculty members and leadership development, held under the auspices of the FLDC at Alexandria University.
- ◀ Participated in a scientific conference held in Alexandria University Faculty of Veterinary Medicine, 1997.
- ◀ Rapporteur, organizer and executor of the general scientific symposium on (risks of street vendors and random markets) on Wednesday, 4/3/2015
- ◀ Rapporteur, organizer and executor of a workshop on the safe handling of food from production to consumption on 28/3/2015
- ◀ Rapporteur and organizer of the workshop on food poisoning on 2/5/2015

✍ Qualification for Food Safety and Quality Systems (Ability to Achieve and Manage Development):

- ◀ Rehabilitation of the Food Safety and Nutrition Laboratory, Faculty of Veterinary Medicine Damanhour University for accreditation by the National Council for Accreditation ,International Laboratory Accreditation Committee (ILAC) in accordance with ISO 17025: 2005 for the efficiency of testing and calibration of laboratories for accreditation. The laboratory has been adopted in a number of 8 programs, 4 microbiological programs and 4 programs in chemical tests on 19/6/2014 .It obtained accreditation from the National Council for Accreditation and International Recognition from the International Accreditation Organization.
- ◀ Qualifying several companies working in the field of food production for accreditation (14 companies), applying quality systems, food safety and the environment as well as training the employees of these companies on these systems (certificate attached)

- ◀ The faculty obtained the ISO 9001: 2008 on 30/5/2015, the first faculty in Damanhour University that obtained that certificate.

Experiences in food safety and food quality

First: lab. Experiences abroad

1- Laboratory of Veterinary Medicine University, Vienna, Austria 1995-1997: *University Veterinary Medicine in Vienna .Meat Hygiene, Meat Technology and other foods lab.*

- ◀ He studied bacteriological changes in protein during the storage of poultry meat using modern bacteriological methods, as well as modern chemical methods such as quantifying the amount of bio-amines using the high performance liquid chromatography HPLC, as well as determining the amount of ammonia using an electronic ammonia device in addition to determining the proportion of non-protein nitrogen source materials as well as the use of electrolysis of each of the cytoplasm Mayovifer protein to determine its safety by using methods such as : [Zone Electrophoresis\(NZE\)](#), [Isoelectric focusing electrophoresis\(IEF\)](#), [Sodiumdodecyl sulphate electrophoresis\(SDS-PAGE\)](#).
- ◀ Detection of pesticide residues, antibiotics, hormones, nitrophenols and green malachite in food, vegetables and feed.

2- Department of Food Science of Animal Origin laboratory, Faculty of Veterinary Medicine, United Kingdom (England) 1997.

- ◀ He worked in projects to recognize ways to get rid of pollution of poultry and other meat by using steam under pressure, lactic acid and acetic acid.
- ◀ - He also learned how to use the PCR method to detect the *Cl. Estertheticum*, as well as the use of SDS-PAGE and Resistotyping to identify both *Campylobacter* spp strains. & [Arcobacter](#)
- ◀ Participation in the practical attempts of an innovative way to remove feathers and evaluate the efficiency of methods of disposal of the *campylobacter* and *salmonella* microbes from poultry. [anovel poultry plucking machine](#)

experiments to assist the efficacy of methods for the competitive exclusions of Campylobacters and Salmonellas from chicks.

3- Royal Veterinary Faculty Laboratory, London, England, 1997. Worked in the following fields:

a- Evaluation of dye and catalysis reduction methods to monitor cleaning and disinfection of abattoirs.

Dye reduction and catalase methods for monitoring cleaning disinfection in abattoirs,

b- Development of techniques for the elimination of the camilobacter from poultry and the application of risk assessment for the pre-slaughter examination.

development of competitive exclusions for Campylobacters from chickens and applications of risk assessment to ante-mortum inspection.

4- Microbiology Laboratory, Department of Food Science of Animal Origin, University of Bristol, United Kingdom, 2002

- He worked with Dr. Hanet of Korea and Dr. Favbat Allen in the project "Studies to identify the critical points of infection of live birds or the contamination of chicken slaughters of the camylobacter and Salmonella. As well as molecular classification and identification methods for these two microorganisms

Worked on research project entitled: "Studies to identify critical points for infection of live birds or contamination of poultry carcasses with Campylobacter and Salmonella species". And also some molecular typing and identification methods of these two pathogens.

◀ He examined samples of broiler chicken from the farms as well as from the abattoirs to detect the cambilobacter microbe and also participated in experiments that measure the effect of drying and cooling on the growth of the cambilobacter, as well as the colonic eucalyptus microbes in broiler chickens as well as

experiments to devise rapid ELISA (Enzyme-Linked immunosorbant assay) for detecting Campylobacter spp. In chicken cecal contents. In addition to I examined spoiled raw-vacuum package meat in order to determine the cause of spoilage by using PCR.

◀ Participated in the **Taste Panel test** for various foods, namely meat, fish, vegetables, dairy products in the laboratory of the Department of Food

Science of Animal Origin, University of Bristol, United Kingdom 2001 (Visiting Doctor).

- In addition to visiting and working at the Center for the Conservation of Refrigerated Food and the Center for Research and Development of Food Conservation Engineering University , Bristol, England.

FRPERC

The Food Refrigeration and Process Engineering of the Research Centre, which works with division of food animal science on collaborative research project particularly concerned with the decontamination of poultry slaughters.

Second: Local laboratory experiences

- ◀ Member of the team of the National Committee for the establishment of the National Bank of equipment and laboratories.
- ◀ Head of the Scientific Laboratories and Scientific Equipment Unit of Damanhour University, Decree no. (147) , 20/42015 up till now.
- ◀ Chairman of the committee of labs and laboratories in the Faculty of Veterinary Medicine - Alexandria University since 1/5/2009 until 20/10/2010.

- ◀ Director of Food Safety and Nutrition Laboratory, Faculty of Veterinary Medicine – Damanhour University accredited internationally in accordance with ISO 17025.
- ◀ Quality manager
- ◀ Accreditation of food and nutrition safety laboratory for the faculty.
- ◀ Rehabilitation of several laboratories for accreditation and the first laboratory of food safety and nutrition, Faculty of Veterinary Medicine - University of Damanhour in accordance with the International Standard ISO 17025: 2005 for the accreditation of the testing and calibration laboratories.
- ◀ Examination of all kinds of food and feed received by the faculty for all laboratory clients of food, feed , water companies and chambers of commerce as well as the control of exports and imports to the Ministry

of Commerce and Industry, periodically in the food and nutrition laboratory.

- ◀ A continuous survey of foodborne pathogens in the Governorates of Alexandria and ElBehera using serological methods and microbiological methods.
- ◀ Solving the problems facing the food production plants and putting the necessary precautions so that they do not recur again.
- ◀ Conducting laboratory tests at the Food Safety and Nutrition Lab in the faculty to inspect some exported foodstuffs at the request of exporters.
- ◀ Inspecting the food in the cafeteria of the university (for students and faculty members) periodically at the Food Control Department.

Published Research papers

- ◀ **Research papers published in local and international journals and conferences in Egypt:**
 - Bacteriological aspects of duck meat "Alexandria Journal of Veterinary Medical Sciences 13 (3): (1997) 309-320
 - Mycological aspects of duck meat "Alexandria Journal of Veterinary Medical Sciences 13 (3): (1997) 515-519
 - Composition of amines and ammonium nitrogen and non-protein nitrogen sources in relation to total bacterial count, time and storage temperature of turkey thighs muscles "Alexandria Journal of Veterinary Medical Sciences 13 (3): (1997) 508-479
 - Vital amines, ammonia and non-nitrogen materials in source protein chicken broiler and poultry fillet as well as liver and its relation to bacterial count and temperature. Egyptian Biomedical Science Journal 5: 213 -220 (2000)
 - The presence of salmonella and Campylobacter in fresh chicken products and thermal treatment. Egyptian Biomedical Journal of science. : 6: 213 -220 (2000)

- Determination of lead and cadmium residues in the liver, kidney, spleen and muscles of cows, buffaloes and camels , Giza Governorate "Egyptian Biomedical Journal of Sciences .: 6: 81-90 (2000)
- The presence and importance of some pathogens that prefer coldness in meat and its products ", Egyptian Biomedical journal of Science. 8 : 71-80 (2000)
- Vital amines content in certain meat products treated with heat\Biomedical journal of Science. 8 : 62-70 (2000)
- Influence of some organic acids during drag food on broiler chickens slaughteres polluted by Campylobacter. The second International Conference of food hygiene and human health, Assiut University October p.108 - 112 (2003).
- Microbial changes in stored broiler chicken. The third Scientific Conference, Mansoura University p.594 -583 page (2003)
- Contamination of poultry, cows, goats and sheep slaughters with cambilobketr microbe during processing. The Second International Conference on Food Health and Human Health, Assiut University ,October p.127- 130 (2003).
- A Questionnaire about some heavy metals residue in shellfish and corticosteroids. Fourth Scientific Conference of Veterinary Medical Sciences , Faculty of Veterinary Medicine, Alexandria University, 120 (1): pp.314 -323 (2004)
- A Questionnaire about some heavy metals residue in some fish. Fourth Scientific Conference of Veterinary Medical Sciences , Faculty of Veterinary Medicine, Alexandria University, 120 (1): pp. -324-329 (2004)
- Microbiological assessment of some freshwater fish. Journal of Veterinary Medical Science Alexandria, 25 (1) 61- 69 (2007).
- The amount of microbes on surfaces of various slaughters \ Biomedical journal of veterinary sciences.25 (1) 71-77 (2007)
- The incidence of hepatic worms in animals slaughters. Alexandria Journal of Veterinary Medical Sciences, 25 (1) 79- 88 (2007).

- The incidence of toxoplasma Gundy in animals slaughters \ Alexandria Journal of Veterinary Medical Sciences 25 (1) 179: 183 (2007).
- A Questionnaire about the presence of some food poisoning microbes in certain meat products. Alexandria University Educational journal, issue of August 2010 study no.4 p. no. 27
- Parasitic situation to evaluate of sheep and goats slaughters. Alexandria University Journal of Veterinary sciences. 2011 159-145 (3) 27.
- Bacteriological safety of meat intended for consumption of markets and stores with a focus on ISO standards. Alexandria University Journal of Veterinary sciences. 2012. 57-63 (1) 1 :27.
- Quality assurance of camel meat ,Journal of Veterinary Science of Alexandria University April 2012, study no.14 , p. 131
- Effect of health status of meat-processing plants on some meat products. Alexandria University Journal of Veterinary sciences. 2012 117 (2) 27.
- Effect of the closure of the esophagus and the outlet on the microbial load of the cattle slaughters. Alexandria University Journal of Veterinary sciences. 2012. 1-8 (1) : 37
- Assessment of the quality of sheep and goats meat . Alexandria University Journal of Veterinary sciences, January 2012 132-139 (2) 27.
- Assurance of domestic and imported meat quality. Journal of Veterinarian sciences, Alexandria University 2013, 171-180 (1): 38
- Quality assurance of poultry meat ready for consumption. Alexandria University Journal of Veterinary sciences. 2013. 35-47 (1) :38
Assessment the health status of raw coffee sold in EIBehera governorate, journal of Veterinary Sciences of Alexandria University. 2013:38 (1) 2047-110
- Effect of nano-particles of zinc oxide on Listeria monositoginz in meat products. The first international Conference about the scientific effect of environmental hazards on food safety Aug. 20, 2014.

◀ Studies that have been published in journals and international conferences with a high impact factor:

- Application of Hazard Analysis and Critical Control Point (HACCP) in Egyptian Slaughter Houses to Obtain High Quality Meat (Global Veterinaria, Vol(3):297-303,2015, ISSN1992 6197,DOL10.5829/idosi.gv.2015.14.03.9380).
- Bio-Estimation of Selected Heavy Metals in Shellfish and Their Surrounding Environmental Media (World Academy of Science, Engineering and Technology International Journal of Biological, Veterinary, Agricultural and Food Engineering Vol:8 No:11, 2014).
- Fasting ameliorates metabolism, immunity, and oxidative stress in carbon tetrachloride-intoxicated rat(Hum Exp Toxicol published online 20 March 2014, DOI: 10.1177/0960327114527629).
- Meat Quality and Biochemical Parameters Related to Human Health under Organic Broiler Production) , Global veterinaria 14(3):409-417,201.
- Effect Of Zinc Oxide Nanoparticles On Listeria Monocytogenes In Ready To Eat Meat (Munich, GRIN Publishing GmbH, <http://www.grin.com/en/e-book/298350/effect-of-zinc-oxide-nanoparticles-on-listeria-monocytogenes-in-ready-to-eat>) medical science journal.
- Quality Assurance of Imported Canned Meat of Global Veterinaria [GV].
- Effect Of Zinc Oxide Nanoparticles On Listeria Monocytogenes In Ready To Eat Poultry Meat Annual Biomedical Research symposium), September 18-19 ,2015 at Tuskegee University.
- Molecular Identification of Staphylococcus Aureus in Imported Frozen and Domesticly Slaughtered Meat

- AFLATOXINS RESIDUES IN SOME MARKTED POULTRY PRODUCTS.
- Assessment of Hygienic Status of Raw Milk Sold in El-Behera Province –Egypt.
- BACTERIOLOGICAL SAFETY OF READY-TO-EAT MEAT FROM MARKETS AND SHOPS WITH A FOCUS ON ISO ROLES.
- Camel milk and bee honey regulate profibrotic cytokine gene
- Transcripts in liver cirrhosis induced by carbon tetrachloride.
- DETECTION OF SOME FOOD POISONING MICROORGANISMS IN SOME MEAT PRODUCTS.
- Effect of Freezing and Frozen Storage on Amino Acid Profile and Fatty Acid Pattern in Imported and Domestic Meat.
- Effect of pomegranate peel powder on the hygienic quality of beef sausage.
- Effect of Sanitary Status of Meat Processing Plants on Some Meat Products.
- Molecular hepatoprotective effects of lipoic acid against carbon tetrachloride-induced liver fibrosis in rats:
Hepatoprotection at molecular level.
- PARASITIC VIEW TO ASSESSMENT OF SHEEP AND GOATS CARCASSES QUALITY.
- Prevalence of Listeria Organisms in Meat and Some Meat Products.
- Quality Assurance of Local and Imported Meat.
- Quality Assurance of Ready to Eat Poultry Meat.
- Selective, reliable blood and milk bio-markers for diagnosing clinical and subclinical bovine mastitis.
- Prevalence a Prevalence of Aeromonas species and their herbal control in fish.

Supervision of theses:(Egyptian and foreign students.

Remarks	Major	number	Degree
(3) of them from the Libya, and (1) from KSA	Health control on meat products and dairy products ((grants for 28-ongoing granting for 15 studies))	43	M.A.
	Health control on meat products and dairy products ((grants for 12-ongoing granting for 7 studies))	19	PhD.

◀ Due to the unique scientific expertise, he has supervised a number of (3) master thesis of Libya and ((1)) master thesis of Saudi Arabia which has a direct impact on strengthening of synergies and scientific links with sister Arabian States in line with general State policy, in addition to increased financial resources for the faculty and University.

✍ Statement on joint scientific theses with other departments in Damanhour University

- ✍ Studies on E-coli proliferation in chicken slaughters in slaughter houses as well as their sensitivity to antibiotics. Microbiology)
- ✍ Influence of refrigeration and freezer storage on a style of fatty acids, amino acids in domestic and imported meat (Department of chemistry)
- ✍ Vital signs and biochemical response in tilapia exposed to lead acetate acid and Fulvic acid (Chemistry department)

✍ Arbitration theses: (Egyptians and foreign students from Saudi Arabia and Libya):

- ✍ The arbitration of a number of (62) master and doctorate theses, which he supervised in the health control of meat, fish and poultry and their products and technologies as well as food safety, In addition to (63) theses in different veterinary faculties in Egypt , in the same field.

✍ International thesis arbitration:

- An international arbitration of a number of (1) PhD thesis at the University of Las Palmas, Canary Islands, Spain dated 25/10/2016 as President of the Committee for discussion at the invitation of Dr. Juan Manuel Afonso Lopes, Professor of aquatic animal geneticist at the University of Las Palmas, the main admin message where he heads the Committee members:
 1. Professor Dr/María Jesús Zamorano aquatic animals inheritance Professor University of Las Palmas de Gran Canaria
 2. Doctor / Deanet Susa Dalkastio - Director of the Center of Biotechnology at the University of Aspol, Ecuador
 3. Dr/Ignacio de la Rosa, Director of the production company kolmasorla fish production – the University of Welfa in Spain
 4. Dr/Hin Suk Shin – researcher at the marine science centre of the University of Las Palmas de Gran Canaria

✍ Participation in research projects and projects for the development of university education as well as training to obtain competitive projects:

- ◀ Animal Panorama Center Project Manager: Learning based to improve the professional competencies of students and raise the efficiency of researchers and scientific research ,Faculty of Veterinary Medicine University of Damanhour starting from 11/12/2014 and ending 11/11/2016, with a budget of L.E.7.4 million.
- ◀ Project Manager to support and develop the educational effectiveness of higher education institutions (SDEE) in the faculty, starts on April 1st ,2015 and ends on 1/10/2016,
- ◀ Working with Dr/ Vivien Allen Dr Gant, the Korean in Bristol University, England in the project / A study to identify the critical points or contamination of poultry slaughters with camilobacter, salmonella and natural methods, which are compatible with the current commercial lines of reducing pathogenes, especially the camilobacter on fresh

poultry "in May 2002 (attached a letter by Dr. Gant of the University of Bristol, England)

- ◀ Executive Director of the project of accreditation of food safety and nutrition laboratory, 1/8/2011 and ending 31/7/2013, which ended in the plant's obtaining accreditation on 19/6/2014
- ◀ Quality Manager for Food Safety and Nutrition Laboratory from 1/8/2011 till now
- ◀ Chairman of the Committee for the credibility and ethics of the quality project (QAAP2) 2010 2011).
- ◀ Participated in a workshop of programs and course description for the 16/8/2009 history of quality assurance and accreditation.
- ◀ Participated in the self-assessment seminar of the faculty "aspects, components and standards" and the formulation of vision and mission and strategic objectives of the faculty, on Saturday, 9/5/2009 quality assurance unit and accreditation of the faculty.
- ◀ Worked in Union company for quality systems and training in establishing and implementing quality and food safety, the environment and personnel training to 14 companies in the field of food safety (certificate annexed).
- ◀ In addition to what exists under item no.24
- ◀ Member of the Committee to prepare the draft of the educational effectiveness by a decree from the university council, on 15/12/2014
- ◀ Training and developing the skills of students of Faculty of Science- University of Damanhur on ISO 17025:2005 for the accreditation of tests and calibration labs in 'student participation project in support of excellence' 2014
- ◀ Training and developing the skills of students of the Faculty of Science to write competitive projects at the Faculty of Science, Damanhour University in the "Student Participation in Support of Excellence" project in 2014 to increase access to projects.
- ◀ Member of the management team of Excellence Management Project (MSE) supporting Excellence, Project Name Animal Panorama at Faculty of Veterinary Medicine Damanhour University.

- ◀ Member of the executive team of the project to support and develop the educational efficiency in the institutions of higher education in the faculty, support for the development of educational effectiveness in Higher Education Institutions (SDEE)
- ◀ Team member performance assessment of new educational programme according to the calendar and guide for a tutorial in institutions of higher learning and Al-Azhar Issued by the national authority to ensure the quality of higher education and accreditation quality and food control, Faculty of veterinary medicine, Benha University 14/3/2013.
- ◀ Executive Director for the adoption of food safety and nutrition Lab 1/8/2011.
- ◀ Quality Manager for food safety lab adoption project and nutrition, 1/8/2011 and up to date.
- ◀ Together with the management team, helped in writing a project proposal of adoption of food safety and nutrition lab and then submitted to the project management and then did a presentation of this project and project management and signed a contract with the Ministry of higher education on 1/8/2011
- ◀ Deputy Executive Director of the University's quality assurance project
- ◀ Member of the Executive team to the draft of quality and accreditation (quality assurance center)
- ◀ Supervised the project to develop the skills and capacities of Damanhour University students **Maintenance & wakening & of students role (M.A.S.R.) (certificate annexed)**
- ◀ Training and development of the skills of the faculty members and the assistant staff in the writing of competitive research projects at the Center for Developing the Capacity of Faculty Members and Leaders - Damanhour University in the project of developing the capacity of faculty members and university leaders.
- ◀ Training and development of the skills of the faculty members and the assistant staff in the writing of competitive research projects at the Center for Developing the Capacity of Faculty Members and Leaders - Alexandria University in the project of developing the capacity of faculty members and university leaders.

- ◀ Member of the Executive Team of the Center for Capacity Development Skills and Preparation of University Leaders (FLDC) - University of Damanhur (Information Technology, Quality and Accreditation Director)
- ◀ Project Manager Electronic Services Unit of Faculty of Veterinary Medicine, University of Damanhour 2/5/2015 till now.
- ◀ Member of the research team for the project "Using genetic transfer technology to produce a strain of tilapia strain for cold in Egypt" This project is funded by the Science and Technological Development Fund of the Ministry of State for Scientific Research 2014-2015

✍ Experience and work in the field of quality, development, excellence and qualification for accreditation:

- ◀ Deputy Director of the Center for Quality Assurance of the University of Damanhour decree no. 58, dated 7/5/2011).
- ◀ Director of Information Technology, Quality and Accreditation of the Center for Capacity Development and Leadership of Damanhour University from 29/12/2010 till now.
- ◀ Quality Manager for food safety lab adoption project and nutrition, 1/8/2011 and up to 19/6/2014.
- ◀ Member of the Committee for the preparation of a project to support the effectiveness of educational quality assurance unit of the faculty, faculty Council Monday 15/12/2014
- ◀ Chairman of the Self-Assessment and Technical Support Team at Damanhour Faculty of Commerce, Sunday 1/10/2014 (Performance Assessment for Higher Education Institution)
- ◀ Member of the directors of quality assurance units - faculties of Damanhour University Tuesday 23/9/2014
- ◀ Chairman of the Self-Assessment and Technical Support Team of the Faculty of Agriculture, Damanhour University, Sunday, 6/4/2014 (Performance Assessment for Higher Education Institution)
- ◀ He was able to lead the executive team of the project to adopt the food and nutrition safety laboratory professionally and efficiently until the laboratory obtained the accreditation from the first evaluation visit and

the 8 programs in the microbiological and chemical tests for food and feed on 19/6/2014.

- ◀ Member of the project for the development of the capacity of faculty members and university leaders as the information technology director and the quality and accreditation director , University Council decree no. 7 of 2014.
- ◀ He received a course on the formulation of programs and curriculum maps for higher education institutions from the National Authority for Quality Assurance of Education and Accreditation, Training Department for the National Authority for Quality Assurance and Accreditation from Dec. 2 to Dec. 4, 2013
- ◀ He received a course in the external review of higher education institutions from the National Authority for Quality Assurance of Education and Accreditation received the Training Department of the National Commission for Quality Assurance and Accreditation from 04 December to 05 December, 2012.
- ◀ He obtained the self-assessment course for institutions of higher education from the National Authority for Quality Assurance of Education and Accreditation
- ◀ Training Department of the National Authority for Quality Assurance and Accreditation from Nov.3 to Dec.1, 2013

Institute of Leadership Development in Helwan

- ◀ Representing the University of Damanshour Institute of Leadership Development.
- ◀ Participated in a number of meetings of the Institute of preparation of leadership in Helwan as a leader of Damanshour University regiment and the last meeting was on the occasion of the celebrations of the victory of October, the glorious and that was from Friday 8/10/2013 until Monday 11/10/2013, Regiment of excellence (some certificates attached).
- ◀ The active participation of the University of Damanshour in the Forum of Excellence in Alexandria in the Student in Alexandria during the period from 21-9-2014 to 26-9-2014.
