

## **Vision**

The faculty looks forward to being a reliable educational and research institution that occupies a prominent position among its peers and enables its members and graduates to reach the level of national and regional competition. This is done through outstanding programs in the Bachelor and Post-Graduate studies, which contribute to the permanent development of the society.

## **Mission**

The faculty provides an outstanding research and educational service that reaches the level of uniqueness and creativity in the field of Arts and Humanities, both locally and regionally, according to the standards of educational and research quality, and the scientific, intellectual and technological developments. This is achieved through the following: the continuous development of the educational programs and the scientific and the research abilities of its members and students, the use of modern educational methods, observing graduates and enabling them to keep pace with the new science, knowledge and experience, meeting the needs of the community and contributing to solving its problems, and finally building the Egyptian character and developing the values of patriotism through cooperative methods and personal evaluation.
